ICELAND HILL RALLY **7th - 10th August 2025**

ROADBOOK

ELLINGSEN

Phone numbers

Clerk of the Course (Tryggvi M Thordarson)	+354 692 3672
Deputy Clerk of the Course (Ian Sykes)	+354 662 6389
Competitor Relations Officer (Frances Sykes)	+354 661 7824
Deputy Competitor Relations Officer (Clare Nedin)	+354 765 5921
Secretary (Clare Nedin)	+354 765 5921
000 (Sverrir Gislason)	+354 690 9995
00 (Jon Thor Jonsson)	+354 662 6389
0 (Halldór Vilberg Ómarsson)	+354 660 0612
E (Thruda Hognadóttir)	+354 868 0333
EE (Brian Whyte)	+44 783 329 7181
Scruitineer (Ari Halldor Hjaltason)	+354 772 6862
Medical Officer (Elsa Kristin Sigurdardóttir)	+354 698 6982
In case of an emergency or an accident the number for all emergency services in Iceland (Police, Ambulance and Fire) is 112	

Official bulleting board

The official bulletin board is located at:

<http://www.hillrally.is/bulletin-board>

Copies of all official communications are posted there in chronological order with the latest being posted at the top.

Early arrival into time controls

Competitors are allowed to arrive early without penalties into the time controls for service areas and end of leg.

Units of Measure

The decimal separator used in this roadbook in distances is a **decimal comma**

Section/ Leg	RS-8: Hlíðufell - Lyngdalsheiði			Distance (km)	Avg speed (km/h)	Time (hh:mm)	Page
2/2				40,51	61	0:40	21
#	TOTAL	PARTIAL	DIRECTION	INFORMATION		TO GO	
1	0,00	0,00			SSS-8	40,51	
2	1,71	1,71		Rut		38,80	

Throughout this roadbook the units of measure for distance and speed are km and km/h respectively. This especially applies to the distance columns **TOTAL**, **PARTIAL** and **TO GO** which are all in km.

The average speed is indicated in the **Av speed (km/h)** field which is the average speed to the next time control. ***This means it covers both the special stage and the following road section.***

The **Time (hh:mm)** field shows the time in hours and minutes to the next time control.

Rally time is shown on <https://time.is>

The units of measure for GPS coordinates in the roadbook are decimal degrees using a decimal point, where the latitude is first followed by the longitude, separated by a comma. Iceland lies between latitudes 63.383341 and 66.533325 north (a positive latitude denotes north) and longitudes -13.483327 and -24.533301 west (a negative longitude denotes west).

An example are the coordinates for Austurvöllur square in the Center of Reykjavik

64.147200, -21.939800

Warnings in the roadbook

The roadbook uses exclamation marks as warnings of dangers ahead. The interpretation of these are as follows:

Ahead is something that may damage the vehicle.

Ahead is something that is more than likely to damage the vehicle and cause the crew injury.

Ahead is something that will definitely damage / total the vehicle and cause the crew serious injury

The roadbook may not include all places where caution is needed. It is ultimately the responsibility of the crew to “read” the road ahead and drive accordingly.

Numerical information

The event is a three day event with the main numerical information as follows:

Date	Total km	SS km	No of SS
7-August-2024	68.78	33.38	3
8-August-2024	260.70	214.66	4
9-August-2024	231.74	184.67	9
10-August-2024	73.18	71.79	3
Total for all days	634.36	504.50	19

Markings along route

Stakes with roadbook line numbers are in the ground for each of the lines of a special stage. The stakes will be placed between 10m to 30m before the line when there is a warning (!, !! or !!!). At junctions and signposts these are at the line.

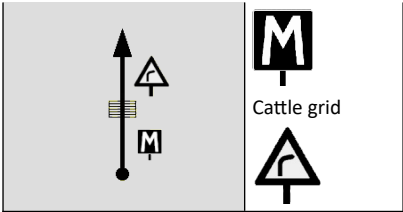

There may be additional signs on stakes to indicate danger or where to go.

Line numbers may be fastened to signposts, if the signposts are close to the road / track.

Multiple signs / action in one tulip

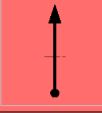

On occasion the may be more than one sign displayed in a single tulip. In the below example the tulip shows from bottom to top the signs / actions in the direction of travel. The **INFORMATION** column reflects this in text – in other words you first come to the M sign, then to the cattle grid and finally to the warning of a sharp right bend.

This may seem strange, but they both show / say the same.

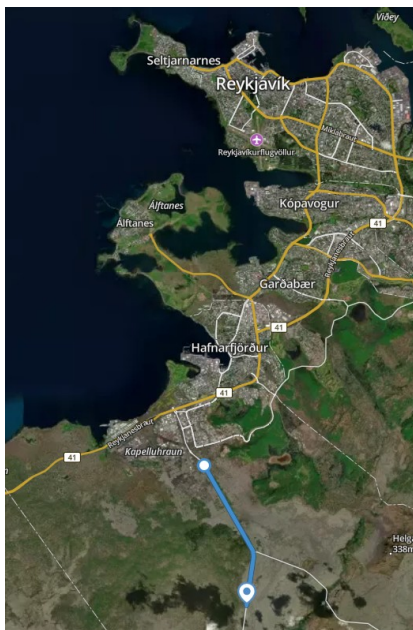

Service bans

There are not many places where there is a ban servicing the competition vehicles on road sections. These places are clearly marked in the roadbook by the red background colour of the **DIRECTION** column, as is shown in this example:

57	61,91	0,31		Turn onto tarmac NOTE: Max speed is 50km/h No overtaking	21,56
58	68,76	6,85		A campsite is on both sides of the road most of the way until line 60. Please refrain from revving your engines.	14,71
					

Measured distance

The organisers have marked out, on road #42 to Krýsuvík, 5168 meters. Its location is shown in light blue in the satellite image on the left.

Signs displaying the start and end of the measured distance are as shown above.

The measurement was done driving from Reykjavík towards Krýsuvík.

The below pictures show the start and end respectively.

The start is at 90km/h traffic sign at GPS coordinates:

64.035305, -21.974400

The end is at a yellow pole sat GPS coordinates:

63.993020, -21.946903

Official measured distance location

The Icelandic Road and Coastal Administration has set out fixed distances which they maintain. For unknown reasons, the distances they have set out are 1001m and 2002m and are to be found on road #35, to Thingvellir. That road can be quite busy at times, so please take care.

To better see the markings, a small timber peg has been placed beside the road to indicate the start and finish of the measured distance.

When using this place to set your trip, please do so from east to west, from either 1km or the 2km positions.

The picture to the right shows the location of 2002m with a blue peg.

The GPS coordinates are:

64.180555, -21.623211

The picture to the right shows the end of the measured 2002m.

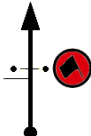

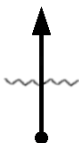

The armco is on the northern side of the road.

The GPS coordinates are:

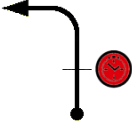

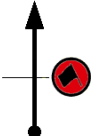

64.180278, -21.643889

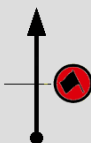

Notations – examples

	Start of Special Stage		Cattle grid
	Special Stage start sign		Junction with traffic lights and indication of which route to take
	Something noteworthy on left hand side		Route to be taken
	River crossing		Sharp right bend
	TC-XX Time Control – number is shown in the description		Back of sign
	Merge with road		Indidcates a sign by side of road

Please note: The car park at Gullfoss is a busy place so please keep within the designated service area. Power points are not supplied so competitors must make their own arrangements. All service on the cars must be carried out within the specified service area. Cars may enter the service area earlier than their designated time without being penalised. The service time is 40 minutes maximum. Cars may also leave early without being penalised. Your time out of service is your time into Parc Fermé. Please see the picture on the next page for service area and Parc Fermé locations. Parc Fermé opens at 12:05. Vinsamlega athugið: Það er mikil umferð um bifreiðastæðið við Gullfoss þannig að við skulum halda okkur innan viðgerðarsvæðisins. Rafmagnstengingar eru ekki á vegum keppnisstjórnar því verða keppendur að gera síðar eigin ráðstafanir í þeim efnum. Allar viðgerðir á keppnisbifreiðunum verða að fara fram innan viðgerðarsvæðisins. Bifreiðum er heimilt að koma inn í þjónustu hvenær sem er án þess að fá refsingu fyrir að koma of snemma inn. Viðgerðartíminn er 40 mínútur að hámarki, en bifreiðum er heimilt að fara þaðan hvenær sem er innan þess tíma. Tíminn út úr þjónustu er tíminn inn í Parc Fermé. Vinsamlega skoðið myndina á næstu síðu sem sýnir þjónustu- og Parc Fermé svæðin. Parc Fermé opnar 12:05.

Please note: The service area is large enough to hold all competition and service vehicles. Power points are not supplied so competitors must make their own arrangements. All service on the cars must be carried out within the specified service area. Cars may enter the service area earlier than their designated time without being penalised. The service time is 50 minutes maximum. Cars may also leave early without being penalised. Time out of service is time into Parc Fermé. Please see the picture on the next page for service area and Parc Fermé locations. Parc Fermé opens at 11:05. Vinsamlega athugið: Viðgerðarsvæðið er nægjanlega stórt til að taka við öllum keppnis- og þjónustubifreiðum. Rafmagnstengingar eru ekki á vegum keppnisstjórnar því verða keppendur að gera síðar eigin ráðstafanir í þeim efnum. Allar viðgerðir á keppnisbifreiðunum verða að fara fram innan viðgerðarsvæðisins. Bifreiðum er heimilt að koma inn í þjónustu hvenær sem er án þess að fá refsingu fyrir að koma of snemma inn. Viðgerðartíminn er 50 mínútur að hámarki, en bifreiðum er heimilt að fara þaðan hvenær sem er innan þess tíma. Tíminn út úr þjónustu er tíminn inn í Parc Fermé. Vinsamlega skoðið myndina á næstu síðu sem sýnir þjónustu- og Parc Fermé svæðin. Parc Fermé opnar 11:05.
